

SUMMARY: The United States Environmental Protection Agency (U.S. EPA) Region 5 announces the deletion of the Carter Industrial Site from the National Priorities List (NPL). The NPL is codified as Appendix B of 40 CFR Part 300. It is part of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which U.S. EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended. U.S. EPA, in consultation with the State of Michigan, has determined that all appropriate Fund-financed response under CERCLA has been implemented at the Carter Site and that no further response action by responsible parties is appropriate. In accordance with 40 CFR 300.425(e), the Carter Industrial Site may therefore be deleted from the NPL. The State of Michigan concurs with this deletion.

EFFECTIVE DATE: March 25, 1997.

ADDRESSES: Information on the Site is available at the local information repository located at: Main Library, Reference Department, The Detroit Public Library 5201 Woodward Avenue, Detroit, Michigan 48226.

EPA received no comments and therefore has not prepared a Responsiveness Summary.

The U.S. EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions should future conditions at the site

warrant such action. If there is a significant release from a deleted site, the site is restored to the NPL without going through the Hazardous Ranking System.
